## NOTES TO THE 2024 CONDENSED CONSOLIDATED HALF-YEAR FINANCIAL STATEMENTS

#### 1. ACCOUNTING POLICES

The condensed consolidated financial statements for the first half of 2024 were finalised by the Management Board on 4 September 2024, and reviewed by the Supervisory Board on 5 September 2024.

The condensed consolidated financial statements for the first half of 2024 of Rubis SCA and its subsidiaries (the Group) were prepared in accordance with IAS 34 "Interim Financial Reporting". The condensed half-yearly financial statements do not include all of the information required under IFRS, and should be read in conjunction with the Group's consolidated annual financial statements published for the year ended 31 December 2023. The accounting policies applied in the preparation of the condensed consolidated half-yearly financial statements for the period from 1 January to 30 June 2024 are identical to those applied for the consolidated annual financial statements for the year ended 31 December 2023 except for the application of new standards applicable for financial periods open from 1 January 2024.

The main areas of judgement and estimates used in the preparation of the condensed half-year financial statements are identical to those described in note 2 to the 2023 consolidated financial statements.

The Group experiences seasonal changes in its business activities that can, from one six-month period to another, affect the level of revenue and operating income. As such, half-year results are not necessarily indicative of what may be expected for the full year in 2024.

## Hyperinflation in Suriname and Haiti

Suriname and Haiti have been among the hyperinflationary countries since 2021 and 2023 respectively.

The application of IAS 29 for the period from 1 January to 30 June 2024 resulted in an increase in consolidated equity of  $\leq$ 18 million and non-material effects on the income statement for the period.

## Standards, interpretations and amendments applicable as of 1 January 2024

The following standards, interpretations and amendments, published in the Official Journal of the European Union as of the reporting date, were applied for the first time in 2024:

Standard/Interpretation		Date of mandatory application
Amendments to IAS 1	Classification of liabilities as current or non-current and non-current liabilities with covenants	1 January 2024
Amendments to IFRS 16	Leaseback liabilities	1 January 2024
Amendments to IAS 7 and IFRS 7	Supplier financing agreements	1 January 2024

The first-time application of these standards, interpretations and amendments did not have a material impact on the Group's financial statements.

## Standards, interpretations and amendments for which early application may be chosen

The Group has not opted for the early adoption of the standards, interpretations and amendments whose application is not mandatory as of 1 January 2024 or which have not yet been adopted by the European Union.

## 2. SCOPE OF CONSOLIDATION AS OF 30 JUNE 2024

The consolidated financial statements for the six months ended 30 June 2024 include the Rubis financial statements and those of its subsidiaries listed in note 20.

### Group of assets held for sale

On 10 April 2024, the Rubis Group announced the finalisation of an agreement with I Squared Capital for the disposal of its 55% stake in Rubis Terminal.

Rubis created the Rubis Terminal JV with I Squared (45% stake) in 2020 to implement a strategy of product diversification and geographic expansion, with a view to creating value for the company.

Rubis' plan to sell its stake in Rubis Terminal meets the criteria of IFRS 5 "Non-current assets held for sale" as of 30 June 2024.

In application of this standard:

- the investment in the Rubis Terminal joint venture is presented on the separate balance sheet line "Groups of assets held for sale" as of 30 June 2024;
- the line "Share of net income from joint ventures" as of 30 June 2024 includes Rubis' share of Rubis Terminal's net income for the period from 1 January 2024 to 31 March 2024.

As of 30 June 2024, completion of the transaction is subject to the lifting of a number of condition precedents, in particular the obtaining of all the necessary administrative authorisations.

## 3. CHANGES IN THE SCOPE OF CONSOLIDATION

During the first half of 2024, Rubis Photosol continued to invest, notably in a project located in France that has reached the RTB (*Ready-to-Build*) stage. The intangible asset recognised as of 30 June 2024 in respect of this transaction amounted to €6.9 million.

At the same time, the Energy Distribution sector acquired two stakes in the renewable energies sector. Soleco Energy Limited (35.3%) and Ezdrive Antilles (49%) both qualify as joint arrangements and are consolidated using the equity method. Their contributions to the financial statements for the first half of 2024 are not material.

## 4. SUMMARY SEGMENT INFORMATION

In accordance with IFRS 8, operating segments reflect the level at which the Group's performance is assessed by the Group's main operational decision-makers (the Managers). This approach leads to a distinction between the following two segments:

• the Energy Distribution segment, which includes the retail and distribution of fuels, heating oils, lubricants, liquefied gases and bitumen, as well as logistics, which includes trading-supply, the refining activity and shipping;

• the Renewable Electricity Production segment, specialising in the production of photovoltaic electricity.

#### 8. GOODWILL AND INTANGIBLE ASSETS

#### 8.1 GOODWILL

Goodwill is subject to an impairment test at least once per year, or more frequently if there are indications of a loss of value, in accordance with the provisions of IAS 36 "Impairment of Assets."

Impairment testing consists of comparing the recoverable value and the net carrying amount of the cash-generating unit (CGU) or group of CGUs, including goodwill. The recoverable value is the greater of the fair value less costs of disposal and value in use. When the recoverable value is lower than the net carrying amount of the asset (or group of assets), an impairment, corresponding to the difference, is recorded in the income statement.

During the first half of 2024, the Group did not identify any indications of impairment.

#### Financial covenants

As of 30 June 2024, there is no situation of non-compliance with these ratios that could result in the early repayment of the loans.

## Supply chain factoring

Some subsidiaries in the Energy Distribution activity have set up paying agent agreements with financial institutions, enabling certain Group suppliers to assign their receivables due from the Group.

This financing programme enables the Group to benefit from extended payment terms for its liabilities to these suppliers. Liabilities for which payment terms have been extended are presented in the "Borrowings and short-term bank borrowings (portion due in less than one

year)" on the line "Other loans and similar liabilities". As of 30 June 2024, the amounts due in respect of these programmes amounted to €16 million. The cash flows related to these liabilities are classified as cash flows related to financing activities.

## Liquidity risk

As of 30 June 2024, the Group had used confirmed credit facilities totalling €805 million. The amount of credit facilities confirmed but not used as of 30 June 2024 amounted to €149 million.

At the same time, the Group has €458 million in immediately available cash on the assets side of its balance sheet.

#### 13.2 LEASE LIABILITIES

## Other information relating to leases (IFRS 16)

As of 30 June 2024, the amount of rent paid (restated leases and exempted leases) totalled €56.2 million and income from sub-letting amounted to €3.7 million.

Rents not restated as of 30 June 2024 break down as follows:

- leases exempted:
  - o term of less than 12 months, totalling €26.5 million;
  - o assets with a low unit value, totalling €0.5 million;
- variable portion of rents of €10.5 million.

## 13.3 COMMITMENTS AND CONTINGENT LIABILITIES (EXCLUDING PROVISIONS)

Rubis SCA and its subsidiaries are subject to tax audits and adjustments are sometimes proposed. The Group considers that it has solid means of defence, that it implements all legal procedures at its disposal to prevent any unfavourable outcomes and that it has set aside all the provisions necessary to cover disbursements deemed probable. The financial consequences of these tax assessments are recognised as liabilities for the amounts notified and accepted or considered uncertain and presenting a probable outflow of resources that can be reliably determined.

The Group periodically reviews its estimate of these risks in the light of changes in audits and litigation, and believes that none of the audits currently underway will have a material impact on its financial position or cash.

In December 2021, the French Competition Authority launched an investigation into practices in the fuel supply, storage and distribution sector. At the end of 2023, the Competition Authority's Investigation Department sent several players in the French oil industry — including three Group entities — a notification of grievances relating to alleged cartel practices in this sector. Receipt of this document in no way prejudges any future conviction. During the first half of 2024, the Group submitted its observations and fully and firmly contested the merits of the ongoing proceedings. As of 31 December 2023, no provision has been recognised, as management considers that the criteria for recognising a provision are not met under IFRS.

#### 14. PROVISIONS

Non-current		
(in thousands of euros)	30/06/2024	31/12/2023
Provisions for contingencies and expenses	107,712	90,714
Dismantling and clean-up provisions	49,298	47,106
TOTAL	157,010	137,820

Provisions for contingencies and expenses include:

- the Group's obligations in terms of energy-saving certificates. These provisions are recognised throughout the three-year period currently in progress (2022-2025);
- provisions relating to risks or disputes that could potentially lead to action being taken against the Rubis Group.

These items are assessed using estimates of the amounts that may be needed to settle any related obligation, and by including the probabilities of the various scenarios envisaged taking place.

Dismantling and clean-up provisions comply with IAS 16. The Group has estimated its clean-up and dismantling costs largely based on the findings of outside consultants. In compliance with IAS 16, the present value of these expenses was incorporated into the cost of the corresponding facilities.

## 17. INCOME TAX

#### International tax reform

The international tax reform agreed by the OECD at the end of 2021, known as "Pillar 2", which aims to establish a minimum tax rate of 15%, has been adopted by France as part of the Finance Act for 2024 voted on before 31 December 2023. It applies in France for all financial years beginning on or after 1 January 2024.

In view of its turnover, the Rubis Group falls within the scope of this reform. In this context, Rubis SCA is the Ultimate Parent Entity (UPE) and may be liable, where applicable, for additional tax in relation to its low-tax subsidiaries.

As of 30 June 2024, the application of this reform resulted in an increase in the Effective Tax Rate of around 6%, taking into account the tax reforms introduced in some of the countries in which the Group operates. These tax reforms will continue throughout 2024.

In its financial statements for the first half of 2024, the Group has maintained the exception for non-recognition of deferred tax relating to Pillar 2 as provided for in the amendments to IAS 12 "Income Taxes".

Rubis Antilles Guyane holds a non-controlling interest in five economic interest groupings (EIG) in the French Antilles; as these entities are not material, they are not consolidated.

Rubis Energia Portugal, Rubis Energy Kenya, SARA and Photosol Développement hold non-material interests that have not been consolidated to date.

In view of the political and monetary problems in Burundi, the Group has decided since 2019 not to consolidate Kobil Burundi due to the lack of effective control over this activity. The corresponding securities were fully impaired. The political and monetary situation did not improve in the first half of 2024.

#### 21. EVENTS AFTER THE REPORTING PERIOD

The Group announced on 19 July 2024 that its subsidiary Rubis Énergie SAS had signed its first ever US Private Placement (USPP) under French law with PGIM Private Capital ("PPC"), the private equity arm of PGIM Inc, the asset management company of Prudential Financial Inc, for \$265 million. Rubis Énergie SAS is to issue three series of €70 million each senior unsecured bonds with bullet maturities of 8, 10 and 12 years.

Rubis Énergie retains nearly \$40 million available under the agreement for future issues over the next two years.

This new USPP financing enables Rubis to diversify its sources of financing while extending the current average maturity of its debt from three to five years and paves the way for other potential USPP transactions.
