11.1 ACQUISITION OF THE LEADING PETROLEUM PRODUCTS DISTRIBUTION BUSINESS IN HAITI

In February 2017, Rubis signed an agreement to purchase all of the stock of Dinasa and its subsidiary Sodigaz, the leading distributors of petroleum products in Haiti.

With 600,000 m³ under distribution, Dinasa is the country's largest network of gas stations (125 stations) and operates

under the National brand and enjoys a presence throughout all segments of petroleum products with a leading position in aviation, LPG, commercial heating oil and lubricants. The company has strategic, self-sufficient logistical resources for importing (storage, maritime points of access).

Dinasa's sales volume represents an increase of over 35% for Rubis Énergie's Caribbean zone volume. During the period ended September 30, 2016 the Dinasa Group generated Ebitda of €40.4 million. The acquisition is due to be completed during the second quarter of 2017.

11.2 ACQUISITION OF THE ADDITIONAL 50% OF THE STOCK IN DELTA RUBIS PETROL

Under an agreement signed in early January 2017, Rubis purchased 50% of the shares of Delta Rubis Petrol from its partners, to own 100% of the share capital.

The final acquisition of the stock was submitted for approval to the local competition authority and approved in February 2017.

The control of the share capital will give Rubis the full managerial independence necessary to redeploy the facilities, including the construction of an additional 120,000 m³, intended to optimize the use of the capacity to receive vessels on the new jetty.
